

Onboard house-keeping operations are exposed to different hazards

ODORS

GARBAGE ROOMS, FLOODED CABINS, SEWAGE, GYMS, CHILDCARE CENTERS ARE AREAS GENERATING ODORS.

MOLD

CAN CREATE ADVERSE REACTION FOR PEOPLE WITH ALLERGIES SUCH AS NASAL STUFFINESS, EYE IRRITATION ETC.

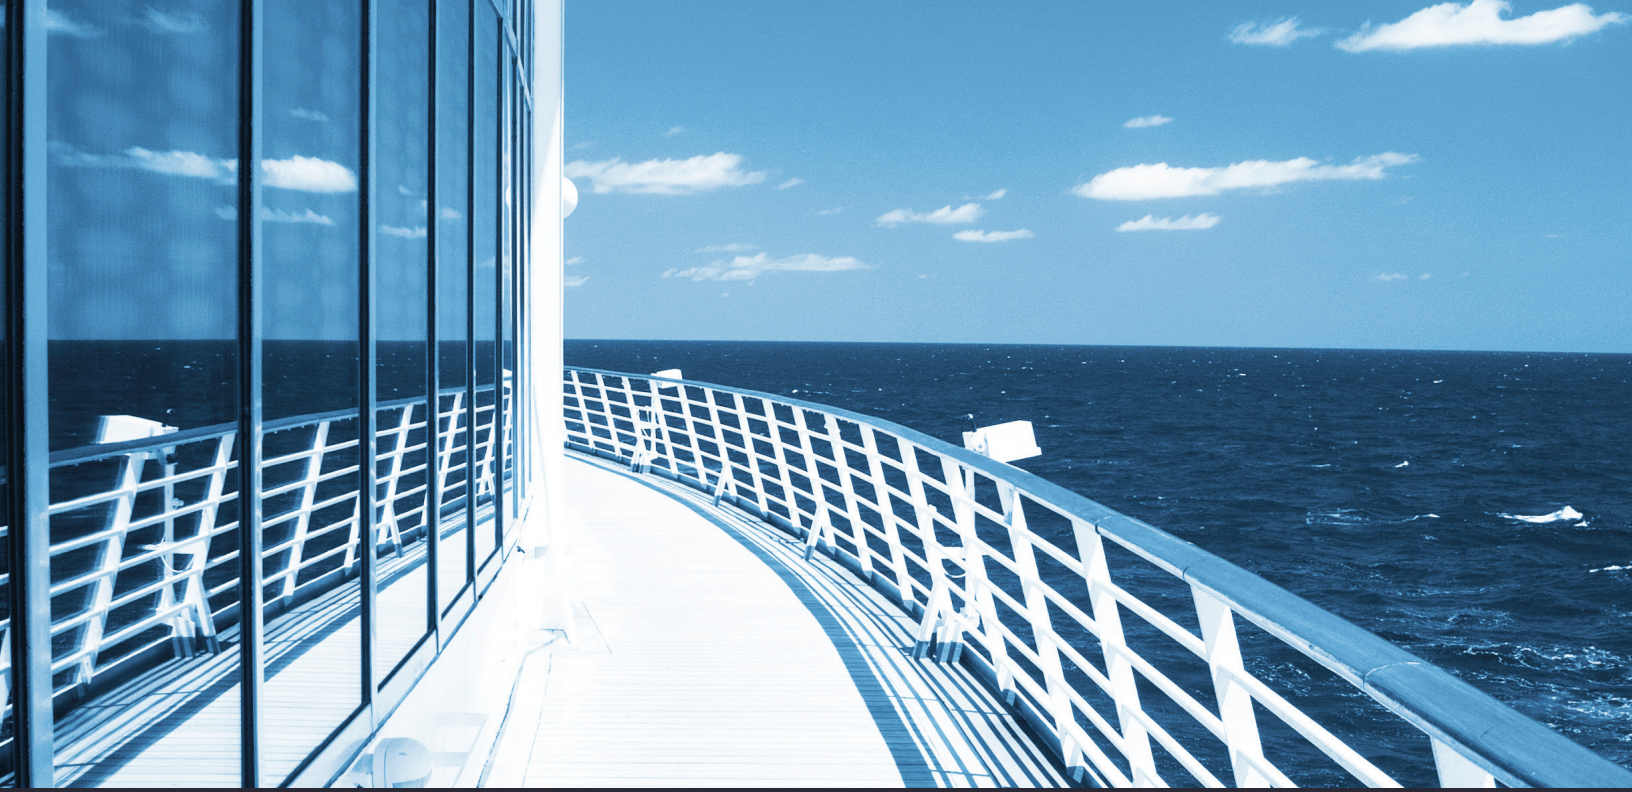

VIRUSES

ENGINE CONTROL ROOM AND CASINOS ARE AREAS THAT HAVE POOR AIR QUALITY AND ARE POTENTIALLY HARMFUL TO WORK IN.

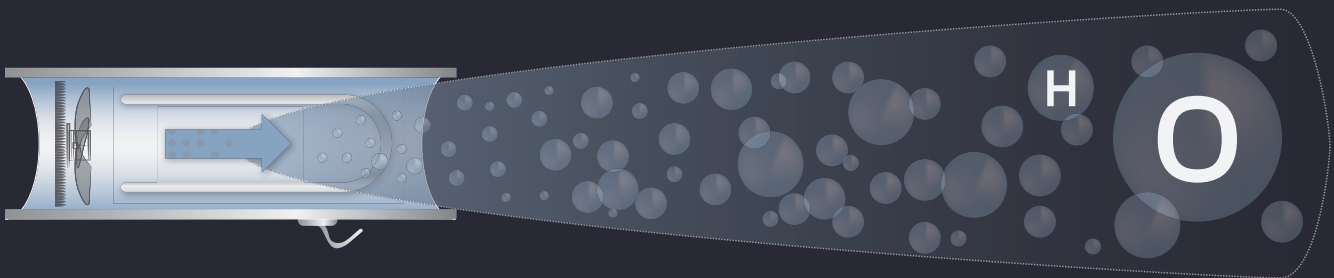

Typically, chemicals have been used to target odors, mold and poor air quality onboard.

Treat pathogens and odors with clean & FDA-approved technology.

We bring nature's outdoor cleansing process indoors

LESS ODORS

- unpleasant & hazardous smells
- eliminate odors from garbage rooms penetrating other areas

HIGHER STANDARDS OF CLEANLINESS

- purifying air and surfaces
- an additional cleaning method to regular routines

IMPROVED AIR QUALITY
